

MHF Summer Appeal

Can we repair Pastor Dickson's Nairobi Slum School ???

The photo opposite shows the optimistically titled "Excel Mariamu Star Education Centre".

It is in Kawangare, one of Africa's biggest slums, situated about 15km west of the capital city of Nairobi in Kenya.

The school has 150 children, ranging in age from 2 to 16 years. There are 9 volunteer teachers. How beautiful the children are in their clean bright uniforms. despite adverse circumstances.

The conditions at the school are atrocious. It's so dark it looks like night during the day, the floor is unstable, the roof leaks and the classrooms need to be divided into two.

Pastor Dickson Mutashe, MHF Administrator Kenya, visits the school monthly to teach the gospel of Christ. His appeal wants to address the main repairs:

| TOTAL ESTIMATED COST | £700.00 |
