**In September, Mother Hen Foundation from Weston-under-Penyard celebrated her third birthday!!! We had a truly international Zoom meeting to honour the occasion, with family from Pakistan, Kenya, Uganda and sponsors from U.K and Spain.**

Our birthday coincided with Harvest celebrations at home and overseas. We thank God and our generous donors for making the following joyful stories possible...

Top right shows Nicholas (not Reuben!) on Zoom. He is celebrating getting in to University at his home in Faisalabad. We are very proud as Nicholas has had many problems to overcome. He will read International Relations, a new subject – good for future employment.

The eggs on the left are proudly harvested by Reuben from Kenya who took part in the Kenyan4 Poultry Project, and is now able to support his children and adopted orphans with the bumper crop of 'hen fruit'.

Nicholas is again at the bottom left hosting a small MHF birthday party with his Sunday School. Nicholas uses illustrated MHF teaching notes and has translated them into Urdu. Our next step is individual Bibles for them.

Last but not least is little Edmond in red at the top of our column. Edmond is 4 years old, in the care of Pastor Juma's orphanage in Uganda. He needed urgent eye surgery on both eyes to restore his sight. By God's amazing grace three donors provided the exact amount the day before Juma made his request.
